v7.3.4 Sept 2021 Update Release

Release Summary

KeyedIn Enterprise v7.3.4 is a scheduled maintenance update release with general support fixes and two minor enhancements:

- The maximum number of configurable periods in Portfolio Analysis has been increased from 24 to 36 months to support Scenario modelling over a three year horizon.
- The standard *Report Usage Log* report has also been updated to include the Report Key, Name (in addition to the existing full *Title*) and Unique Reference. The updated Report is available on request from Support.

Customers will be notified separately via our internal Support process (Freshdesk) for any of their tickets that have now been resolved in this Release.

Portfolio Analysis – allowed periods increased from 24 to 36 months

When configuring a Portfolio, the limit of the number of periods that can be modelled has been increased from 24 to 36 months, selectable in 3-monthly increments, to allow for scenario modelling over a longer time period.

| Amend Portfolio | | | | |
|-----------------|------------------------------|----------------|---------------|--|

Enhancement to Report Usage Log

The standard *Report Usage Log* report has been enhanced with the new fields highlighted below.

The Current Reference field relates to the Unique Reference that can be specified for Reports created in the enhanced Report Writer.

The full Report Title is also now shown and not restricted to 50 characters as previously.

| Report Us Showing Report | age t Usage from 01/08/2 | 2021 to 31/08/ | 2021 | | | | |
